

Green Space Coverage by Census Tract, City of Toronto

Percentage (%) of each tract's land area classified as public green space

Total GreenSpace %

- No green space
- Less than 2%
- 2-5%
- 5-10%
- 10-20%
- 20% or more

This map shows the share of each census tract's land area covered by public green space, including formal parks, natural areas, and other public open space. The average tract has about 11% coverage, but distribution is highly uneven: 36 tracts contain no classified green space at all, while a few exceed 50%, led by the Rouge Park area at 84%. The highest coverage follows the city's river valleys, including the Humber, the Don, and the Rouge, along with the waterfront. The lowest coverage is concentrated in the dense central city, especially downtown and the west-central neighbourhoods.
